

EFFICIENCY
CONSISTENCY
QUALITY

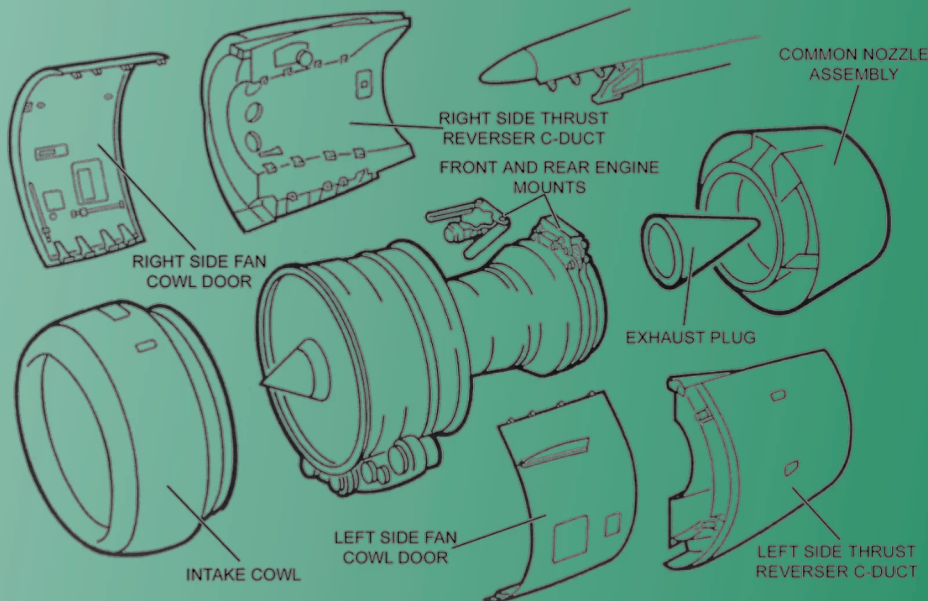

Your partner for nacelles.

Killick is the leading independent source of Air Intake Cowl, Thrust Reversers, Fan Cowl, Exhausts and Common Nozzles for the CFM56-5B/7B and V2500-A5 Engines installed on 737NG and A320CEO aircraft types.

We maintain a global pool of equipment that is available for Purchase, Exchange or Lease.

Killick partners with industry recognized MRO's to provide quality equipment, ready to go when and where you need it.

Whether it is stocking of spares or supporting an unscheduled removal event, please get in touch to find out how we can support you.
